

CSA Minutes for Meeting
November 28, 2007

The meeting began with a discussion of possibly approaching the list of major landholders in San Andreas to get their input on their views of what we as Citizens of San Andreas are trying to accomplish. After much discussion it was decided to table the idea until we get our map more complete.

Tim McSorely spoke about the grant COG (County of Governments) has received. He stated it is very flexible and COG will be accepting the public's input. All prerequisites are done for the actual receiving of the grant. Plans will continue to evolve as the vision for the grant use becomes formalized. He suggested that our group start meeting and creating ideas on how to best use the money. He also shared a suggestion to do a key vision of reduction of vehicle reduction by creating more access for bicycles, pedestrians, carpools and buses.

Pat Guttman and Marge Geizler were not available to give their report on the San Andreas Vision discussion.

Jim Kavanagh suggested we try to come up with ideas to present for the Visioning Meeting on Dec. 5th. He will send out a notice of that meeting to those on the e-mail list and suggest to everyone to prepare ideas they'd like to present. Jim and Barbara Kavanagh and Tillman Sherman will hand out flyers at the post office and Treats on Monday Dec 3 to make everyone aware of the Town Hall Meeting.

Next Meeting date to be announced.

Yours Truly,

Barbara Kavanagh
