

Citizens for San Andreas Meeting February 27, 2008

Jim Kavanagh opened the meeting with his report on where he's at with Circulation. Tom Infusino suggested he send it in to the county and also to Mintier before March 11, as part of their baseline report. He gave Rene Chapman as a contact person. Tom also suggested we word the solutions (implementations) as "here are some of the solutions we have." He said to be clear on what WE want and let the county decide what to do about it.

Zerrall McDaniell gave her group's report on the proposed map. The group has proposed a letter to land owners asking them their views on the boundaries. A copy of the letter will be e-mailed to everyone for comment.

Marian Coahran gave a report on her group's work in conservation.

Tyler Summerset from COGG will be at our next meeting to tell us where they're at with the San Andreas Community Grant.

Tillman Sherman reported that he and Jim Kavanagh have been collecting all our data on our meetings, newspaper articles, and promotions. They are putting it all together as a history for Citizens of San Andreas to show how we are (and have been) doing our best to promote public input and participation. Tillman is organizing the data and will submit it to the group when completed.

Next meeting is Wed. March 26, Oak Shadows, 5:30 PM-7:00PM.
