

Citizens for San Andreas Meeting May 26th, 2008

Jim Kavanagh opened meeting by introducing our guest speakers, Gary Goffe, CPUD, Don Young, SAFD, and Bill Vierra, SA Park and Rec.

Don Young spoke first and gave us an overview of the fire dept., explaining the financial situation and a vision of what he'd like to see invested in his department in the future.

Gary Goff, manager of CPUD, gave an overview of his department stating that they are there for their customers to provide service, and that everything is running pretty well. He stated that at this time the system is good, there is plenty of great, quality water and that is good for future growth in the area.

Bill Vierra did the same for the Park and Rec. Dept. stating there are three3 pieces of property overseen by the dept., Town Hall, Turner Park and the Ball Park. He stated that the high school maintains the lower part of the ball park, as they use it for their games.

Jim asked each of them after their report if they would send him their info written up as a vision for the Community Plan. We hope to incorporate some of their information into our Community Plan.

Jim shared his Table of Contents for the Community Plan and asked for input. It was very positive and accepted as is.

Jim shared that Mickey Williams in the Coalition wants to put an article on our CSA in their newsletter.

Next meeting to be determined later.

Respectfully yours,
Barbara Kavanagh
