

CSA minutes for Meeting on July 31, 2008

Jim Kavanagh opened the meeting sharing the fact that our CSA Community Plan first Draft is on our website and encouraged everyone to read it and share their input. August 23 is a Spaghetti Feed fundraiser for Zerrall McDaniel at the Met. There will be both a silent and live auction.

Bob Dean spoke on the Frontier Project. He represents CCWD. He suggested we encourage environmental planning and craft some of these ideas into our own community plan. He stated that PAWS is interested in using some of the options in building their Visitors' Center by building one that utilizes all aspects of green construction.

Steve Schimp from SASD gave his report for our Community Plan. He presented a short version and a long version. After discussion, everyone decided it would be best to use the shorter version in our Community Plan and have the more complex draft as an attachment if questions arise.

Marian Coahran, Barbara Grogan and Arlene Weissman presented their draft of conservation in the Community Plan Update. Comments were welcomed.

Zerrall McDaniel is pursuing the possibility of obtaining the mitigation for the Ventana Project for the San Andreas Community.

Next Meeting August 27, Wednesday.

Respectfully Yours,

Barbara Kavanagh
